DETAILED ACTION

Receipt is acknowledged of the Amendment and the Request for Continued Examination filed 12 May 2004.

Allowable Subject Matter

Claims 26-37 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Re claims 26-31: The best prior art of record discloses a method for operating a MEMS device having a flap that is movable with respect to a base, the method comprising: applying a pre-bias force to the flap to move the flap at least partially out of contact with the underlying base. However, the prior art fails to teach or fairly suggest a method for operating a MEMS device having a flap that is movable with respect to a base, the method comprising: applying a pre-bias force to the flap to move the flap at least partially out of contact with the underlying base wherein the pre-bias force is separate from a force that actuates the flap as claimed in claim 26. Claims 27-31 are allowable by virtue of their dependency.

Re claims 32-37: Claims 32-37 are allowable for the reasons set forth in the Office Action dated 24 December 2003.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2882

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- US Patent 6,538,799 discloses the current state of the art.
